### HOLY WEEK.

The Beautiful Repositories at the Cath-

The present, Holy Week, the last of the Lenten penitential season, is observed with services in the Catholic churches commemorative of the passion and death of the Savior. Sunday next, closes the season, and after grand and appropriate ceremonies the church resumes holding the ordinary services. Yes-terday, Holy Thursday, began the most sol-emn services of Holy Week. At the differ-ent churches of the city the office of Tenebrae, or darkness, was rendered. This put out at the end of each psalm. The office is usually chanted by anticipation on the Wednesday evening preceding, and in like manner the office for Friday is chanted on Thursday, and the office for Saturday on Friday evening. Yesterday was also celebrated the blessing of

unction. Many religious people and others visited St. Peter's and St. Mary's Catholic deposited the repositories or altars whereon are deposited the blessed sacrament. The repository is an altar especially fitted up and decorated with lights, flowers, draperies and ornaments for the occasion. The sacrament is taken from the tabernacle on the main altar and in solemn procession, with singing and chanting and ceremonies peculiar to the oc-casion, placed in the repository especially prepared for it, where it remains until the prepared for it, where it remains until the prepared for it, where it remains until the succeeding morning. At St. Peter's church last night, Rev. Father Ryan delivered a discourse before a large congregation. To-day, Good Friday, services will be held not only at the Catholic, but also at the different Episcopal churches of the city, it being a most holy day with both denominations. At

mass said on this day, that already referred to. To-morrow there is the blessing of the foot, the fire and the paschal candle. The services and ceremonies of the last three days \$1.00 REWARD—For the arrest and conviction of the party who set fire to my houses, Nos. 170 and 172 Carroll avenue, on night April 13th.

So unusual were the circumstances connected with it, and so much companies. ment did it occasion on the street and in social circles, that a representative of this paper was commissioned to investigate its details and verify its facts. The article referred to was a statement made by Mr. B. F. Larrabee, of the New York and Boston Dispatch. patch Express company, that after having lain at the point of death for more than lain at the point of death for more than three weeks, given up by both physicians and friends, he had completely and wonderfully regained his usual health. Mr. Larrabee was found in his private office on Arch street, and upon being questioned, said:
>
> "Well, sir, logically, I have been dead, but really, I am as you see me. A little over a year ago I was taken sick, but I allowed the illness to run afong until on the 28th day of October, 1879, I tell prostrate while walking along Tremont street. I was carried home and did not go out of the house until the middle of December. I then went

until the middle of December. I then went down town and attempted to attend to my business until the thirteenth of last January, when I was taken with a very severe relapse. My symptoms were terrible. I was fearfully bloated; I suffered severe pains in all parts At the county register's office yesterday an assignment was filed by James Kirkland, making Henry Luchrmann the assignee. It bloated; I suffered severe pains in all parts of the body, and it was almost impossible to get my breath. For six days I never laid down and never slept. I was constantly attended by my regular physician, Dr. Johnson, and Dr. Bowditch also came to see me nearly every day. nearly every day. There was no doubt that I was suffering from Bright's disease of the kidneys in its worst form and last stages, accompanied by other troubles in my liver and heart. In spite, however, of the skill of the physicians, I kept growing worse, and finally they tapped my side in the vicinity of the heart, taking away forty six ounces of water. This relieved me for the time, but I soon became as bad as before. Then the doctors gave me up entirely, declared I could not live more than twenty-four hours, and my daughter, who was residing in Paris, was telegraphed for. Still I lingered along for several weeks, far more dead than alive, but never giving up hope. One night—it was on the 20th of April, I very well remember—my attendant, who was reading the paper to me, began an article which described my disease and sufferings exactly. It told how some severe cases of Bright's disease had been cured, and so clearly and sensibly did it state the case that I determined to try the means of cure which it described. So I sent my man to the drug store, procured a bottle of the medicine, unknown to my physicians and friends, and took the first dose at 10 o'clock. At that time I was suffering in tensely. I could not sleep; I had the short breaths and could scarcely get any air into my lungs. I was terribly bloated from head to foot, and the motion of my heart was irregular and painful. The pext morning I to foot, and the motion of my heart was ir-regular and painful. The next morning I

was able to breathe freely; the pain began to leave me and the bloating decreased. I con-tinued to take the medicine, and, fo-day, sir, I am as well as I ever was in my life, and whol'y owing to the wonderful, almost mirac-ulous power of Warner's Safe Kidney and Liver Cure. I do not know what this medi-Liver Cure. I do not know what this medicine is made of, or anything clse about it, but I know it saved my life when I was given up by the doctors, and had really been dead for weeks; that it has kept me in perfect health ever since, and has cured many of my friends to whom I have recommended it. There are a number of very remarkable cases in Lynn and Salem, as well as in this city, that it has cured. My recovery is so remarkable that it has excited much attention, and physicians as well as others have investigated it thoroughly. I am glad they have, for I feel that the results of such a wonderful cure should be known to the thou-sands in all parts of the land who are suffering from troubles of the kidneys, liver, or

heart in some of their many dangerous The representative of the press thanked Mr. Larrabee for his very frank and clear statement, and was about to leave the office when a gentleman stepped up to him and inquired if he were seeking information about Mr. Larrabee's sickness and recovery. the gentleman said:

And so am I, and I have come all the way from Chicago for that very purpose.

Kidney troubles seem to be alarmingly inthe receipts from April 1, 1880, to March 3, very near relative who is afflicted much as Mr. Larrabee was. I have been to see the physicians of whom Mr. Larrabee speaks, and I tell you, sir, it is simply wonderful."

"What did they say?" asked the man of

"Say! why, sir, they fully confirm every-thing Mr. Larrabee has stated. I went to see Dr. D. A. Johnson, at 20 Worcester street. He was absent when I called, so I street. He was absent when I called, so I stepped into the Commonwealth hotel, where Mr. Larrabee was living at the time of his sickness. Messrs. Burgh & Carter are the proprietors, and I asked them about Mr. Larrabee's case. Mr. Burgh pointed to the electric annunciator and said, why, for weeks and weeks every time that bell rang I said: That means the death of Mr. Larrabee, No one around the hotel ever dreamed that he would recover, and when the doctors would come down from his room they would shake

their heads and say there was no hope. The arrangements for the funeral were made, and his recovery was simply a miracle.'
I then called on Dr. Johnson, who said that Mr. Larrabee's case was a very remark-able one. He was with his family physician and expected his death every hour for a number of weeks and never called to see him during that time but he was prepared best that could be made by this legislature, for it. The doctor said the recovery was due and the only one possible within two years. and if he had friends, male or female, troubled with albumen or any kidney difficulties he should certainly advise them to use this remedy. Dr. Johnson said kidney difficulties are more common than most peo-ple think and that many symptoms which are supposed to be other diseases arise from the kidneys. He said that ladies after gestation are especially subject to albuminous troubles which require prompt attention. Well, I then came down and called on Dr. H. Ingersoll Bodwitch, on Boylston street. The old doctor was inclined to be reticent, and the valuation for taxation is lower than but fully confirmed all I had previously in any other State, and still a fifty-cent tax orty or thirty or ten cents tax, but such a

I next went to see Dr. Melville E. Webb. found Dr. Webb a most celebrated and wellinformed gentleman, and he said:
"I know of Mr. Larrabee's case from having thoroughly investigated it as medical director of a little insurance company, and it is one of the most remarkable cases I have ever met. Mr. Larrabee had all the manifestations of a complication of diseases, and in their worst forms. He had albumen and

casts in the urine, and a terriby diseased liver and spleen. Indeed, he was so bad that he threw himself upon the floor, and with his head upon a hassock, struggled for breath. It was on the night when he was so bad, and when all his medical advisers had long given him up, that he began using War-ner's Safe Kidney and Liver Cure. The next morning at 10 o'clock he was able to breathe reely, and has been ever since. I subjected him to the most thorough examination pos sible, after his recovery, and I can't find out about him. His kidneys, liver, lungs and heart are perfectly well and sound. I can only add that, from what I have seen, I unhesitatingly recommend this emedy.

THE WOMAN'S

ing a Great Work-Words of Hearty Commedation.

Western Methodist: Brief mention was nade some weeks ago of the work of Woman's Christian ussociation of Memphia Since that was written the writer has enjoyed the privilege of preaching at the Mission Home, owned and controlled by the associ-ation. This Home is devoted to the reclamation of fallen women, furnishing a place of refuge for transient helpless women, and the christian instruction of children rescued from he lower grades of city life. They have inday-school every Sunday morning, preach ing by the city pastors at 4 p.m. every Sunday, and bible reading by the ladies at 4 p.m. every Thursday. Besides this, the association also has devotional services at the ja every Sunday evening and a bible class on Thursday evening, and a service of song and scripture reading at the city hospital every Sunday afternson. They have also a thorough system of ward canvassing, by which the poor and distressed are found out and relieved. And your missionary, Miss Osborn, conducts cottage prayer meetings in various parts of the city as the way opens. The association never gives to habitual or professional beggars, so that contributors are assured that their alms will be bestowed on the worthy.

We commend to the charitable everywhere this noble work and these noble workers. If the reader of this has money to spare, or good clothing which has been outgrown and laid aside—for children or adults —or an abundance of provisions, let that reader send these things to Mrs. M. MEMPHIS SCHOOLS,

Sustained by a Few Brave, Indefatiof Public Opinion.

Boston Journal of Education: "The next thing in order, and one that will not tolerate delay, is the revival of an obstitute and en-lightened interest in public education. No city has suffered more in this sacred interest, within the past few years, than Memphis. By a series of open and covered assault, an excellent system of schools has been brought to such a strait that a month ago it seemed inevitable that the teachers should be dismissed and the children turned into the streets. Happily, at this extremity, the public woke up, and, by the co-operation of an earnest and active superin-

after it was brought down to death's door, must unquestionably be certain in all minor troubles, which are so disastrous unless taken in time.

Meanwhile, the control of the people who believe in good schooling, and no amount of mutual fault-inding will mend matters until a phalanx of the friends of good education conquers the situation and places the public school on foundations that cannot be mored. Meanwhile, the city owes an incalculable debt of grati tude to a group of admirable women, who hold the educational fort and are teaching the children in a spirit of broad intelligence and loving sacrifice beyond all praise. In many of the public and several excellent private schools, and in the LeMoyne institute for colored

youths, these resolute and devoted teachers are doing God's work and keeping their troubles to themselves. Outside the church the most vital interest of Memphis, the schooling of its five thousand children, is in the keeping of less than a hundred women of whom any city may well be proud. Here is just the place and crowning opportunity for the far-famed chivalry of Memphis to come to time. No body of excellent women more strongly appeals to the loftiest man-hood for a wise and valorous crusade in behalf of childhood in bonds than this goodly

And her elbow on her knee,
'Tis not hard to understand
What the maiden's thoughts must be:
With her face with rapture beaming,
And her eyes upon the floor,
She is thinking, she is dreaming,
of the man she does adore. Then she lifts her eyes of blue
To a dress upon a chair;
But, although that dress is new,
Sure her thoughts cannot be there.
Ah, a smile of pleasure flutters
Gently o'er that face so pure,
As her thought she softly utters:
"I will cut it Pompadour."
